

UF CLASS COMPASS

User Manual

HOME PAGE

Upon entering the home page, users will find basic information about your website, such as its purpose and key features.

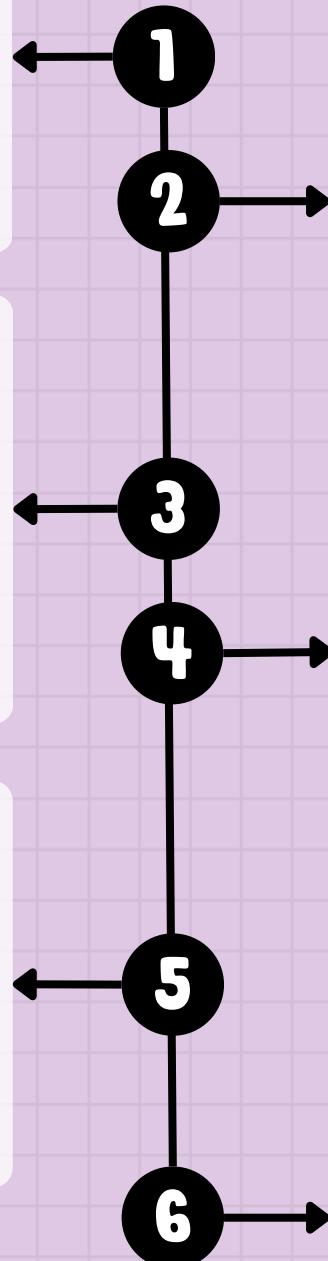

SCHEDULE PAGE

Users can input course codes and add sections to their schedule. This feature helps them organize their classes visually and avoid scheduling conflicts.

COURSE SEARCH

Users can access the course search page from the navbar at the top.

Users can filter search through courses to find a specific class.

LOGIN

To access all features, users must log in. New users can create an account, while existing users can log in using their credentials.

SCHEDULE INFO

Users can click on any section in their schedule to view more details about the class.

This includes information like the class location on a map, class description, prerequisites, textbooks and data from Rate My Professor.

COURSE SEARCH 2

They can use filters to refine their search and quickly locate the desired course.

Users will also be able to find important class information such as meeting times, class description, instructor and RateMyProfessor data.

FILTERING

Users have the option to create multiple schedules (in a folder format) to organize their classes based on different criteria. This feature is particularly useful for students managing different permutations of a the same schedule in case a class cannot be secured or they like having multiple options.

ADDING COURSES

Users can search for courses by name. Additionally, they can click on courses already in their schedule to pull up available sections.

This functionality streamlines the process of building a schedule by providing quick access to relevant course information.

ADDING SECTIONS

Once a course is selected the sections of course appear below it.

Users can hover over course sections within their schedule to preview how the meet times would look in their schedule. Clicking on the section adds the course/section to their current schedule.

SCHEDULE TOOL

NO CONFLICTS

Courses with scheduling conflicts are automatically moved to the bottom of the section list for any course.

SECTION INFO

Users can select a section in their schedule to bring up a sidebar with more class information including the description, instructor, location, textbooks prerequisites, number of credits and the final exam time. As well Rate My Professor data and Maps data

REMOVING COURSES

Users can click on the "X" button next to active sections in their schedule to remove them. This functionality allows users to make changes to their schedule easily and efficiently. Whether they no longer need a particular course or have made a scheduling mistake, they can quickly remove courses with a single click.

LOTS OF COURSES

Users have access to an extensive database containing over 3000 courses and 8000 sections. (Same data is in course search on the schedule tool)

FILTERS

Search results can be filtered by various criteria, including professor, credits, course level, date and time, and building code. This is done by selecting one of the filter options below the search bar.

DETAILED INFO

Each search result provides detailed information about the course, including the instructor, credits, meeting times, class description, and Rate My Professor data, once a course is selected.

COURSE SEARCH TOOL

ADD TO SCHEDULE

Users can add sections they are interested in directly to one of the schedules connected to their account with the add to schedule button once a course is selected.

MULTIPLE SEARCH OPTIONS

Users can search for courses using various categories, including course code, section
